That President MacMahon feels alarm ed at the situation in France is evident from his last manifesto, in which he claims that since his accession to power he has endeavored, by appealing to the moderate men of all parties, to insure order in the empire. He confesses that the outlook is threatening, but claims that elections adverse to his policy would only aggravate the danger. The fact that Mine. MacMahon is to leave Paris until after the election shows that he fears for the worst.

The Virginia residents of the city and a number olgothers called upon Governor Mathews, of West Virginia, at the Louisville Hotel last night to pay their respects. They met at the Masonic Temple and marched in a bedy to the hotel.

Judge Jackson, of the Circuit Court, delivered a short address on behalf of the Virginians, to which the Governor replied as follows:

Close of the war, as my friend has said, many of us in Virginia found ourselves within the limits of a State in the formation of which we had no participation, and which was created out of territory of Virginia. For a time we suffered as no other people, I presume, have suffered. You and I, str. were unable to practice our profession. These remedies are a certain cure for
Consumption as the Pulmonic Syrup ripens

enables the organs to form good bloed; and
